Huge rustic property with a cave house to reform located in the municipality of Jumilla, very close to the Sierra de la Pila (protected natural area). From the property there are stunning views of the area.

The land has a total of 165,000 m2 and there are several plots on various levels. Hilly land, dry land, with almond trees, some olive trees and pastures. It has several entrances and the land has not been cultivated for a long time. From the property there are beautiful views of the area and although it seems that it is isolated, there is a small village nearby, with several country houses.

Inside the land there is a cave house to reform, which is quite large with a wide entrance and rooms on both sides. In total it has 4/5 bedrooms, 1 bathroom (unfinished), no kitchen, living room with wood burning fireplace and wood oven, pantry, utility room and water tank. The cave house can be connected to the drinking water network and although it currently has no electricity, years ago it had electricity.

The access is good, by paved road and a stretch of approximately 1 km of dirt road, in good condition. It is about 30 minutes from the town of Jumilla (Murcia) and 20 minutes from the town of Pinoso (Alicante).
